Vision

To serve through **Integrity, Quality and Professionalism**.

Company Mission Statement

To become the middle-sized **ICT Services** Company of choice by achieving extraordinary results for our clients through **Integrity, Quality and Professionalism** and to build successful careers for our employees whilst delivering timely and profitable projects.

Pride

At **SCG Systems**, we think of ourselves as a trustworthy team of experts who are able to handle any and all projects, no matter how in-depth they may be.

WHAT WE DO

Delivering total turnkey solutions with in house resources ensuring we deliver every project with full accountability and one point of contact for our clients.

SCG Systems is driven, very simply, by the need to deliver “real” client value. Knowing how to make or do something is one thing, integrating all services to deliver a solution is what differentiates **SCG Systems** from the rest.

We focus on providing solutions to meet or exceed customer expectations. We provide great value to organizations that need our solutions.

OUR SERVICES

SCG Systems follows a solutions methodology that allows us to build partnerships for life with our clients.

This philosophy is achieved through committed and skilled team of staff that ensure that solutions are tailored for the specific needs that our clients require.

Our range of services form the foundation of the service levels and solutions which we offer to our clients are as follows:

AUDIO VISUAL	IT SOLUTIONS	SECURITY

TO OUR CLIENTS

SCG Systems operates on principles of holistic optimization. Our experts are able to transform any idea into reality that is maximized to its full potential. Highly-skilled and knowledgeable project managers are present at every site, keeping a finger on the pulse of the proceedings.

PROPOSITION

We believe in challenging the norm and converting dreams to reality through Integrity, Quality and Professionalism, providing an all-around better experience in the ICT industry and achieving extraordinary results for each client individually.

We firmly believe that proper planning and communication between client and contractor is essential to managing risk and producing results of the highest quality.

We believe **SCG Systems** has the integrity the ICT industry needs. We do this by focusing on our clients and their objectives. As we offer our service, we strive for the highest degree of transparency between all role players and assure our utmost attention to detail from inception phase to final completion

SOCIAL RESPONSIBILITY

SCG Systems spend initiative is focused on education, on the job skills transfer. Our community engagement incorporates our commitment to partnerships with non-profit organizations and sponsorship of charitable initiatives.
